

OWNER REVIEW REQUIRED BEFORE CUSTOMER SIGNING

This fillable working copy is based on Ethan Chaltu's supplied agreement. Dates, vehicle details, price, deposit, mileage, pickup and return terms must be completed and confirmed by the owner before either party signs. It is not an automated booking or DocuSign envelope.

3 Condition, drivers and insurance

Before pickup, the parties should record existing damage and the vehicle condition. The renter confirms a valid driver's license and applicable insurance. The source agreement allows only the renter to drive except as permitted in writing. The original age wording distinguishes primary and additional drivers; Ethan must confirm the eligibility rule before use.

EXISTING DAMAGE / INSPECTION RECORD

ADDITIONAL AUTHORIZED DRIVERS, IF ANY

4 Vehicle use and return

Return the vehicle at the agreed time, place, fuel or charge level, and substantially the same condition, ordinary wear excepted. Request an extension before the scheduled return. Different rates or applicable late, location or retrieval charges may arise under the final terms. Do not use the vehicle unlawfully, for racing, or to push or tow another vehicle.

5 Cleaning, fuel and travel area

The source agreement prohibits smoking and pets without written permission and sets cleaning or violation charges. It also addresses refueling or charging and describes a New York and New Jersey operating area, with written approval for travel outside it. Ethan should confirm the final fee schedule, permitted travel area, vehicle-specific fuel type, and any GPS or remote-operation disclosure before signing.

6 Tolls, tickets and property

The renter is responsible for tolls, parking and traffic violations, and related amounts incurred during the rental as described in the final agreement. Remove personal property at return; the source agreement disclaims responsibility for property left in the vehicle.

7 Vehicle-specific notes

FUEL / CHARGE AT PICKUP, KEYS, EQUIPMENT, AND SPECIAL TERMS

8 Damage, responsibility and owner condition statement

The supplied agreement assigns the renter responsibility for damage, loss and certain claims arising from use, subject to its final terms and applicable law. The owner states, to the best of the owner's knowledge, that the vehicle is in sound and safe condition for normal use. The parties should document condition at pickup and return, and confirm insurance and liability language before signing.

9 Early termination, disputes and changes

The source document states that a party may end the rental early and that fees are not refunded for early termination. It also contains arbitration and governing-law language with unfinished city and state placeholders. Those dispute provisions are intentionally excluded from this public working copy pending Ethan's review; a finalized agreement should state the complete terms before anyone signs.

10 Owner confirmation of final terms

The owner should review and complete every blank in this document, confirm all policies and charges with the renter, and supply the completed agreement to both parties. No card number or card security code should be entered in this document or sent by ordinary email. Payment, if needed, should use a separate secure payment method.
